Services

INTRODUCTION

BRIEF COMPANY OVERVIEW

In short, IE is a world-class company that designs, engineers and manufactures *sophisticated, custom* electrical distribution and control equipment. To better serve customers, IE also represents a variety of premier suppliers and distributes quality products and systems. From substations, transformers, power centers, switchgears, custom generators, capacitor banks and VFDs to cable splices, monitors and control systems; you can get it all with one phone call to IE.

So what sets **IE** apart from the competition? The answer is easy... their highly skilled team, innovative approach, dedication to customer service and product reliability.

Precision
Fabrication

IE's team is comprised of industry experts who have unparalleled experience working within demanding and rugged environments. Customers have expressed great satisfaction from the fact that IE employs industry leaders who are hard working and who have substantial knowledge of not only electrical systems and industrial applications, but specialized fabrication as well.

Rebuild
Services

Innovative approach? Innovative thinking is deeply engrained within every IE employee. Whether it is implementing the latest technology, finding ways to improve durability, or finding a solution for your demanding requirement, IE will always rise to the challenge.
