

"Dependable Solutions for Demanding Requirements"

Custom Electrical Manufacturing and Fabrication, Engineering Services, and Product Distribution

Engineering
Services

PLCs, MONITORS, CONTROLS & COMMUNICATIONS

Intermountain Electronics (IE) designs, manufactures, assembles, programs and tests custom electrical controls and monitoring systems. From simple relay control panels to sophisticated PLC based motor control panels utilizing Variable Frequency Drives (VFDs), IE can program your controller to satisfy your operational requirements.

Systems

MONITOR & CONTROL SYSTEMS

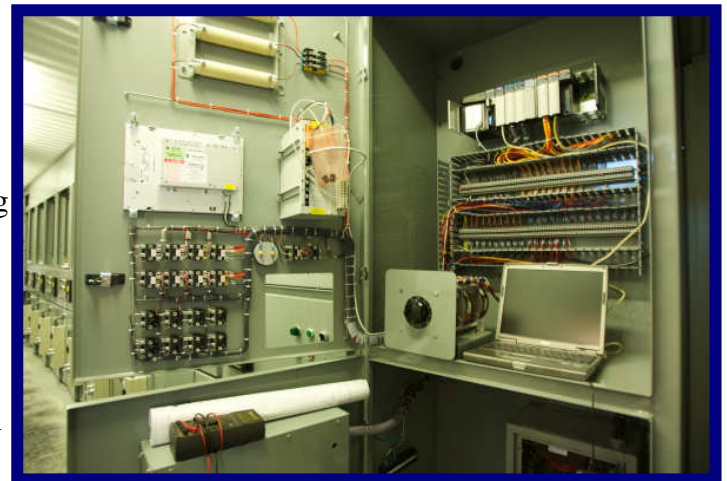

- Programmable Logic Controls (PLCs)
- Variable Frequency Drives (VFDs)
- Environmental Monitors
- Motor Controls

APPLICATIONS

- Fans
- Pumps
- Material Handling Equipment
- Etc.

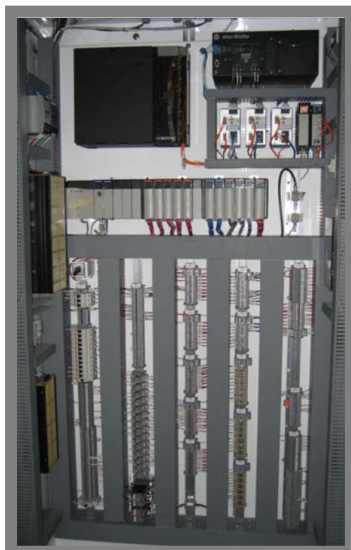

SERVICES

- IE** IE offers complete turnkey solutions: engineering, programming, installation, start-up and follow up maintenance.
- IE** IE can assist in the conversion of existing communication systems to state-of-the-art fiber optics systems for an entire process.
- IE** IE can evaluate your current process to let you know if systems can be improved for more efficient and safer operation.
