

# **Bobby Houston**

## **General Manager, Transformer Division**

While still in high school, Bobby was working at Intermountain Electronics as an Entry Level Technician. He attended the College of Eastern Utah and graduated with an Associate degree in Applied Science – Pre-Electrical and Computer Engineering. Bobby went on to Arizona State University where he earned a Bachelor of Science degree in Electrical Engineering from the Ira A. Fulton School of Engineering in 2006. Bobby was promoted to Project Engineer in 2006 and then to Transformer Division General Manager in 2008. He plans to attain a Professional Engineering License in 2010 and is an active member of IEEE Power and Energy Society Transformer Committee.
